Quattro Magic Merlin

Lots of love from the branch Otterstadt, Quattro has settled down super-duper. We have here to stand though something, but have from To you get for it a puppy, how we us no better could introduce. He is simply a dreamlike and enchanting dwarf schnauzer, just a washing-real Magic Merlin. Though the small fellow is quite disrespectful, cocky and has if he is reprimanded, one quite rotten memory, because by his edn. he forgets prägtes assurance very fast. We are inspired, how freely and informally he behaves. He is super intelligent, what one with to many opportunities notices and, besides, in addition still very pertinaciously. This intelligent dog demands his leaders, thanks for the observance, however, with his very own life joy combined with a fantastic being which search her equals. We have a lot of fun with him and a joy is to be watched how he grows up and develops.
